The drawings and elevations were reviewed in detail. No significant changes or revisions are necessary.

**4. Potential dates for Board/Commission presentations**

The committee discussed potential dates for scheduling presentations. The earliest could potentially be Nov 2 for Historic District Commission.

Street renderings and a project description will be needed for public review, most likely after the boards/commissions presentations. The material can be uploaded to the Committee's page on the town's web site.

Meeting adjourned 8:10 pm.

Respectfully submitted,
