

Community Hike to the Pest House Saturday, April 26th

What was a Pest House?

A Pest House was an 18th century hospital where people infected with the smallpox were quarantined.

Durham's Pest House existed from 1760-1790 and only a foundation, well, and gravesites remain.

This hike is sponsored by the Durham Historical Society and everyone is welcome.

Contact Sarah Atwell at 860-716-5497 with questions.

Location: Gather at the Durham Historical Society at 38 Town House Road (next to the town hall) at 9:00am. Everyone will carpool to the site.
